

ABOUT INDIA SMART UTILITY WEEK

India has set the Net Zero target for 2070. Electrification being the key strategy for decarbonization, for India to be Net Zero by 2070, the power sector in India should target to become Net Zero by 2050. Towards this goal, Government of India has launched a host of programs and projects that comprises of:

- More than doubling the present Power Generation Capacity to 900 GW by 2032
- Increasing the Renewable Energy (RE) based capacity to 596 GW by 2032
- Development of 236 GWh of Battery Energy Storage Systems (BESS) by 2032
- Launch of Carbon Market by end of 2023
- Rollout of 250 Million Smart Meters on fast track
- Implementation of Time-of-Day (TOD) tariff for Electricity for all Consumers from 2025 which will incentivize consumption during high solar hours at reduced tariffs

Since inception in 2011, India Smart Grid Forum (ISGF) has been spearheading the movement towards digitalization of utilities in India; and have played pivotal role in bringing new technologies and solutions to India including Artificial Intelligence (AI), Machine Learning (ML), Robotics, Blockchain, Web 3.0 and Metaverse applications.

ISGF has been organising its flagship annual event, India Smart Utility Week (ISUW) since 2015 and it is considered as one of the top five international events on Smart Grids, Electric Mobility and Smart Energy. All the previous editions of ISUW (initially known as India Smart Grid Week – ISGW) were huge success that attracted the attention and participation of the who-who amongst top-notch thinkers and utility leaders from around the globe. Technology Companies, Regulators, Policy Makers, Government Officials and Senior Officers from Electricity, Water and Gas Utilities from 50+ countries participated every year in the past editions. ISUW 2023 was attended by over 2200 delegates and addressed by 264 eminent speakers from 22+ countries.

10th Edition of India Smart Utility Week (ISUW 2024) from 12 – 16 March 2024 in New Delhi

The 10th edition of ISUW is scheduled from 12 – 16 March 2024 in New Delhi, India as an International Conference and Exhibition on Smart Energy and Smart Mobility. ISUW 2024 will include plenaries, bilateral workshops, keynotes, technical sessions, technical paper presentations, tutorials and technical tours. Bi-lateral Smart Grid Workshops with EU, USA, Brazil and Germany are also being planned. 8th edition of ISGF Innovation Awards will be organised as part of ISUW 2024 on 15 March 2024.

For Partnership, Exhibition and Participation queries, please write to us at isuw@isuw.in. For more details about ISUW 2024, kindly visit www.isuw.in
